

My department has received numerous inquiries from parents and residents requesting information regarding the status of our investigation concerning the posting of pictures of former and present female students of the Perry High School on a face book page.

The individual responsible for the “Kole William” face book page has been identified and interviewed by officers of the Perry Village Police Department. As a result of our investigation (as well as consultation with the county prosecutor’s office and the Village’s legal counsel), it has been determined that no criminal conduct occurred.

The Perry Village Police Department, however, understands the anger, anxiety and concern these postings have caused throughout the entire Perry Community. We are continuing to monitor the situation; and, if any further conduct of the subject nature occurs, appropriate action will be taken.

In addition, the presence of Perry Village Police Officers on the Perry Public School Campus will continue.

Michael G. Shank, Chief of Police
